## SKILLS

- **Technologies:** HTML 5, CSS 3, ES/JS 6, C#, Java, Node.js, ASP.NET Core, Express.js
- **Frameworks/Libraries:** Vue.js, .NET Framework, D3
- **Methodologies:** Agile - Scrum
- **Databases:** Oracle SQL 11g, PL/SQL, MSSQL, MySQL, MongoDB
- **Others:** JSON, AJAX, RESTful API, Version Control, MVC, MVVM

## PROJECT

**HTTPS://RUECIPE.HEROKUAPP.COM/**

**RUECIPE,** PERSONAL

Learned and implemented Node.js by building a Recipe Web App. It is a simple recipe web app that lets user create, edit, and/or delete recipes and/or comments. You can create an account to test the app and its authentication function. *Future iteration plans include implementation of a front-end framework, using existing API, and adding functionalities to improve user experience.*

**HTTPS://MOVIEDB.AALOY.REPL.CO/**

**MOVIE DB,** PERSONAL

An implementation of JSON, RESTful API, and AJAX knowledge. This web application shows the current movies playing in the theater and the details about the movies using an existing, and frequently updated API about the movies. *Further iteration will change the layout of the web application and will include tv series, popular movies, and newly released movies section.*

## EDUCATION

**SEPT 2018 - DEC 2019**

**SOFTWARE ENGINEERING TECHNICIAN - DIPLOMA,** CENTENNIAL COLLEGE

Graduated with a GPA of 3.4.
